

Following a meeting this afternoon with the state, we are now being required to implement a mask mandate in our schools. This change will go into place beginning tomorrow morning. This mandate will apply to the school building, the bus ride, and any other locations where we cannot be socially distant. If you have a mask, please send it with your child, if not, we will provide one for him or her. Hopefully, this will be reevaluated on or before December 13, 2020. Children age 5 and under are exempt from this requirement. If you are choosing to opt into distance learning due to this mandate, please let your building administrator know so we can plan accordingly. We understand this is going to be difficult on our students and staff and we will take steps to make it as comfortable as possible under the circumstances.
